MESSRS, AUGUST BELMONT & CO. MESSRS. STRONG, STURGIS & CO. MESSRS. LEE, HIGGINSON & CO.

In reply to your request for information regarding the Unified Mortgage fifty year four per cent, gold

bonds of Long Island Railroad Company, I beg to state as follows:

The development of the Long Island Railroad system has been algradual combination of many separate and independent roads, brought from time to time under one general control, rather than a ground from an original definite policy.

The present management, realizing that in order to attain the full measure of efficiency possible for the is stem as now constituted a plan should be made for placing its finances upon a wise and permanent basis, have adopted what they believe to be a broad and satisfactory financial policy. This plan provides, so far have adopted what they believe to be a broad and satisfactory financial policy. This plan provides, so far as desirable, for bringing together all these various properties into a single ownership—that of the Long Island Railroad Company—and for a conversion of their securities, so far as practicable, into a single security issued by the Long Island Railroad Company, by which also adequate provision is made for the future needs of the Company. On their recommendation the stockholders of the Long Island Railroad Company needs of the company.

As a mithorized, and there has been executed, a morigage upon the entire property of the Company for forty-five million dollars of fifty year gold bonds, to bear interest not to exceed four per cent. per annum. The bonds are to be issued for the following purposes, and all securities or property acquired throug

the use of any part of them will be delivered to and held by the Trustees as additional security.

Reserved to exchange or retire all of the existing bended indebtedness of the Company.

and its controlled or leased lines, and to provide for the liquidation of all existing floating debt, real estate mortgages and equipment notes; for detailed statement of which see copy of the mortgage and printed Annual Reports of the Company For the improvement of Atlantic avenue, as provided in bills passed by the Legislature at

For the abolition of grade crossings upder the statute applying thereto. Reserved to pay the cost of change of motive power, in case a change to electricity or other power should be deemed advisable by the Company...... To pay for improvements and additions recently made to the property.

The remaining bonds may be issued only for permanent betterments and improvements and the acquisition of additional property, at not exceeding the rate of \$400,000 per annum...

The mortgage, as prepared, contains provisions carefully guarding the issue of bonds, and secures the application of all the proceeds to the purposes contemplated. It also provides for vesting with the Trustees the title to all improvements and additions to the property, to be held by it as additional

Of the four million dollars of bonds sold you, the proceeds of three million five hundred thousan dollars of bonds will provide sufficient funds to pay or acquire the floating debt of the Company and all of its real estate mortgages, and equipment notes, and money necessary to pay for the improvements which have been made or are now being made to the property. The proceeds of the remaining five hundred thousand dollars of bonds have been used to purchase from present holders on favorable terms sundry securi-

ties of various issues now outstanding. Arrangements have also been made to issue on terms advantageous to the Company one million si hundred and fifty thousand dollars of bonds in exchange for other securities of various issues now outstanding in the hands of security holders. These bonds, together with those sold to you, will make a total amount now to be issued under this mortgage of five million six hundred and fifty thousand

The saving to the Company by reason of the above-mentioned exchanges, and by the sale of four per cent, bands to provide funds to retire the floating debt, real estate mortgages, and equipment notes of the Company will be over twenty four thousand dollars per annum.

The issue of the \$1,200,000 of bonds for improvements will be an increase of the present bo

the interest on which will be offset in part by the saving just noted, MAKING A NET INCREASE IN THE FIXED CHARGES AMOUNTING TO ABOUT \$24,000 PER ANNUM; and it is my opinproperty.

The gross earnings of the LONG ISLAND RAILROAD SYSTEM for the past three years have been as

Surplus after paying fixed charges and taxes 264,067.11 The figures given above do not, however, include the Prospect Park and Coney Island Bailroad, which during the same period was operated at a loss of \$50,407.77, and which I do not now take into consideration for the reason that this road has since been leased to the Brooklyn Rapid Transit Company, and will no longer be an expense to the Long Island Railroad System.

The policy of the management for the last two years and at present is to strengthen the property by expending the surplus earnings in additions and betterments. Yours very truly.

W. H. BALDWIN, JR., President.
